## EDUCATION

**V.V.P  Engineering College**                                                                                                      Rajkot, India
Bachelor of  Engineering                                                                                                            2020 - 2024
CGPA : 9.00

## WORK EXPERIENCE

**Zeus Learning**                                                                                                             Jan 2024 - Present
Software Developer Engineer
- Spearheaded the development of responsive web applications using **HTML**, **CSS**, and **JavaScript**, **Angular** enhancing user experience and interface interactivity.
- Collaborated with senior developers to implement backend functionalities in **C#** and **.NET**, ensuring robustness and scalability of applications.
- Leveraged **Git** and **GitHub** for version control and collaboration, actively participating in code reviews and contributing to Agile development methodologies for timely project delivery.

**Improwised Technologies**                                                                                            Aug 2023 - Sep 2023
Software Engineer Intern
- Worked on a live project "Rovren Software" designed for image processing with **OpenCv** dependency.
- Implemented different types of OpenCv operators for streamlined image Processing.
- Developed "Shishu NetraRakshanam" app aimed to prevent excessive use of mobile devices by children.

## PROJECTS

**BookStore (ReactJs, ExpressJs, NodeJs, MongoDb, Socket.io, TailwindCss)**      **Link**
- Implemented a login system utilizing cookies and sessions for user authentication.Includes distinct user roles with assigned permissions and access levels.
- Implemented **Socket.io** for real-time web socket communication, enabling instant user feedback and updates, including real-time notifications on new products, inventory changes, and order status updates; resulting in a **40%** increase in user engagement and satisfaction.

**Real-time Chat Application (ReactJs, ExpressJs, NodeJs, MongoDb, Socket.io, TailwindCss)**      **Link**
- Developed a secure and efficient instant messaging app with multi-chatting capabilities to enhance the user experience.
- Implemented robust data security measures, including password hashing and **JWT** (JSON Web Tokens) for user authentication.
- Achieved a remarkable **30%** decrease in security breaches by implementing advanced security features.

## ACCOMPLISHMENTS

- Secured International rank **219, 178** respectively in CodeChef challenge in month of May among **20k+** participants
- Secured **2nd** Institution Rank on GeeksforGeeks
- Secured **3rd** place at Smart India Hackathon 2022
- **5 star** in Problem Solving at Hackerrank
- Secured **1st** Position in Code-Blooded at College level.
- Solved **800+ problems** on Leetcode

## SKILLS

**Language**:- C, C++, Java, Python, Javascript, MongoDB, C#, SQL, MongoDb
**Framework**:- Nextjs, Bootstrap, ReactJs, ExpressJs, Angular, AWS, Cloud
**Other Skills**:- Git, Github, Agile & Scrum
**Course Work**:- **Data structure & Algorithm**, OOP, **DBMS**, Operating System, Computer Networking

## PROFILES

- **Leetcode : smit_123**          **GFG : smit123**          **GitHub : SmitDoshi1610**          **Codeforces : smitdoshi_123**
